

Hey Parents!

When it's time to order pizza, take something off your plate and **encourage your kid to pick up the phone and call.**

Why?

Benefits of Kids Calling to Order Pizza

- **Builds Confidence:** Some kids may be nervous to call, but overcoming uncertainty shows them they are capable. Little doses of resilience like this add up throughout childhood
- **Increases Planning and Communication Skills:** Organizing the family's order, payment information and address improves executive functioning skills. Ordering via voice helps improve communication
- **Builds Self-Esteem:** Research shows that when children contribute to their family via chores, helping to cook a meal or - in this case - ordering a meal, it increases their belonging and significance, and ultimately their self-esteem

Pretty cool, huh? Alright, now who is getting hungry?!?

Print the **Pizza Ordering Worksheet** on the next page. Your kid can fill it out and use it as a guide when calling to order.
